DAY 3, SINGLE VEHICLE (see
 SKETCH) MOVING DOWN ROAD
 AWAY FROM AREA 1 TOWARD
 AREA 2. 4 YOUNG MEN IN
 VEHICLE, WEARING WHAT APPEARS
 TO BE PROTECTIVE SUITS (see
 SKETCH). TWO IN BACK
 MONITORING DEVICE THAT
 LOOKS LIKE A HEART MONITOR
 SCREEN (see SKETCH) MEN
 ARE INTELLIGENT, FUNCTION
 AS A TEAM AND HAVE HIGH
 MORAL. JUST ABOUT BMNT
 THEY PULL OFF ROAD AND
 CONTINUE MONITORING. THERE
 IS A RADIO IN VEHICLE
 WHICH MAY BE IN CONTACT
 (OR RELAYED THRU) A HELICOPTER
 THERE ARE TWO EXPLOSIONS
 WHICH MAY NOT BE RELATED

(2)

THE FIRST IN A SMALL
EXPLOSION, FIRE IN THE
MIDDLE BLACKISH GRAY
SMOKE OUTSIDE WHICH
OCCURS FURTHER DOWN
THE ROAD TOWARD AREA 2,
PEOPLE RESPONSIBLE ARE
APPROXIMATELY 6 BEARDED
IN ROBES WITH A SIMILAR
HORIZONTAL ^{BROAD} STRIPE PATTERN

|||. SECOND EXPLOSION
OCCURS BACK ALONG THE
ROAD DIRECTION AREA #1.

THERE IS NO FIRE. EXPLOSION
IS IN A CONFINED AREA
AND REVERBERATES. FORCE
IS FIRST DIRECTED UPWARD
AND THEN BACK DOWNWARD.

THERE IS A ~~THE~~ TRANSPORT

VEHICLE CARRYING SEVERAL
 LARGE BLACK DRUMS. DRUMS
 CONTAIN A THICK MILKY
 LIQUID WHICH HAS A SWEET
 PUNGENT SMELL, LIKE ORCHARD
 ON 2 WEEK OLD GARBAGE
 SOAKED IN AMONIA. THIS
 LIQUID HAS AN ACIDY
 COMPONENT, AND MAY BE
 USED WITH OR AS A
 CATALYST. THIS LIQUID
 CAN MAKE YOU VERY VERY
 SICK.

THERE ARE MANY
 VEHICLES IN WHAT MAY
 BE AN UNDERGROUND
 AREA. THIS AREA HAS
 A MARSHALLING AREA FEELING,
 AND SOLDIERS HERE FEEL

(4)

FEELING HERE OF PEOPLE
WAITING FOR SOMETHING.

★ ROUGH, DRY, COOL, MANMADE ROAD SMOOTH, QUIET, DETACHED
IN A WAY.

→ Position Yourself SO THAT YOU CAN PERCEIVE BOTH AREAS AT
ONCE

★ DONE

→ NOW MOVE TO THE AREA IN BETWEEN - THE ROAD

★ DONE

→ NOW MOVE BACK TO MARCH 1984 7-22 MAR 84

★ DONE

→ REMEMBER YOUR TIME LINE AND RECALL WE HAVE
ALREADY DONE THE FIRST TWO DAYS

★ OK

→ MOVE NOW TO THE NEXT DAY AND DESCRIBE WHAT
YOU SEE

★ VEHICLE, ANGULAR, MILITARY MEN, MAYBE 4, MEN IN
PROTECTIVE SUITS

→ PROTECTIVE SUITS - DESCRIBE

★ BULKY, NOT PLIABLE, HOOD, FUNNY MASKS

→ FUNNY MASK RAW DATA

3

★ Tubular, bug eye, uncomfortable, warm, cloudy inside, Bulky, one piece. Some sort of monitoring pulled off on wide shoulder - Radio, static noises, Alert, Don't see other vehicles - Just this one

→ Describe the vehicle

★ Oblong, metallic, sloping front, compartment, maybe open, heavy front, radio, Very high, front seats, back seats face each other. Back seats definitely covered, front maybe uncovered (open). Back of vehicle also slopes down but not as much as front. Wheels, black, overinflated, look like bean bags - Static, green light device inside. Device green light like heart monitor small screen, not computer. There are grids-like window panes, divided in boxes - dark again (outside). I'm popping in and out before/after Sunrise - possibility of something in the air

→ Something in the air -

★ Two - 1st impression - possibility Link - radial, plane, helicopter large black, very large, low strange, 2nd image - a feeling - ~~weak~~ wheat, golden wheat, photograph, stop frame 4 people in heavy clothing - - young, bright, alert, feeling by a bond - comradeship - team - party, moving very slowly - engine sounds - watching two things & people in back watching screen - people in front watching area around. Alert - not precise word, very aware, some -- not primary - excitement not apprehension - trusted - moving very slowly

4

(continued)

- ★ Let me be sure, like red & grey explosion not here
- more data
- ★ smoke explosion, bright red, black on the outside location confusion but not by vehicle - Possibly two locations, one in front and one behind. Vehicle is turning around, slowly, hard to do on this road, going back from where it came, up hill now - air vehicle - confusion here - maybe a relay - maybe subordinate to - cold - other vehicles behind them - blunt nosed, blunt hood -
- Result of the explosion
- ★ closing down, sealing off, blockading, I must be careful here, two explosions -
- Describe the first
- ★ not large, red in the middle, greyish black combustible, ground level, possibly chemical, heat after the explosion, not a big explosion, I don't know if two explosions are connected - except in time. 1st explosion in the open. 2nd explosion is not - 2nd is back in a confined place, reverberating, smoke, dust, no fire, its up and back down again force, bouncing off. longer in confined space.
- What does the truck have to do with the explosion -
- ★ The truck is in between the two - dust - dark - The second - like in a hollow area, a lit hollow area. Damp in here.
- Where are you

5

★ I Think I'm on the ground. Rocky, rough, damp. not as cold. Dewey. Very careful here Raw data
 There are a lot of young people here in a confined ~~main~~ space. Waiting. Very careful. checking. a lot of feelings here. originally they feel secure, safe in this space. Maybe waiting here. There is almost a marshalling feeling as opposed to transitory.

→ Where is the road

★ Can't be sure. Raw Data getting image of like coal mine with track running through with light beaming in through tunnel door.

→ So they are not at the road -

★ Maybe at the road - But the road does something funny here, like a worm hole - hollow and it drops down.

→ Let's go back to the explosions - Did they begin at the truck

~~Did they~~

★ No. first one is ahead of the first truck. The other one is back up behind the other vehicles. Different types of explosions - ~~they're~~ ----- Uh, ----- Maybe a tunnel back there - at the far end --- the second one seals off. There is a pattern here makes sense

→ Move to the source of the explosion - Move to the people who caused it -

★ OK - not sure 1st explosion - White phosphorous - popped it - Not sure of signal line - people who caused it Men/robes/beards/

6

→ ★ That is excellent, 2nd Explosion men who caused it

★ Very careful here - 1st Impression - Truck - large circular, cylindrical, dark colored cylinders, 2nd Impression, Uniforms, Dark colored uniforms - Not Black, Not Brown, Not Blue - May be responsible in different way than men in robes

→ cylindrical objects

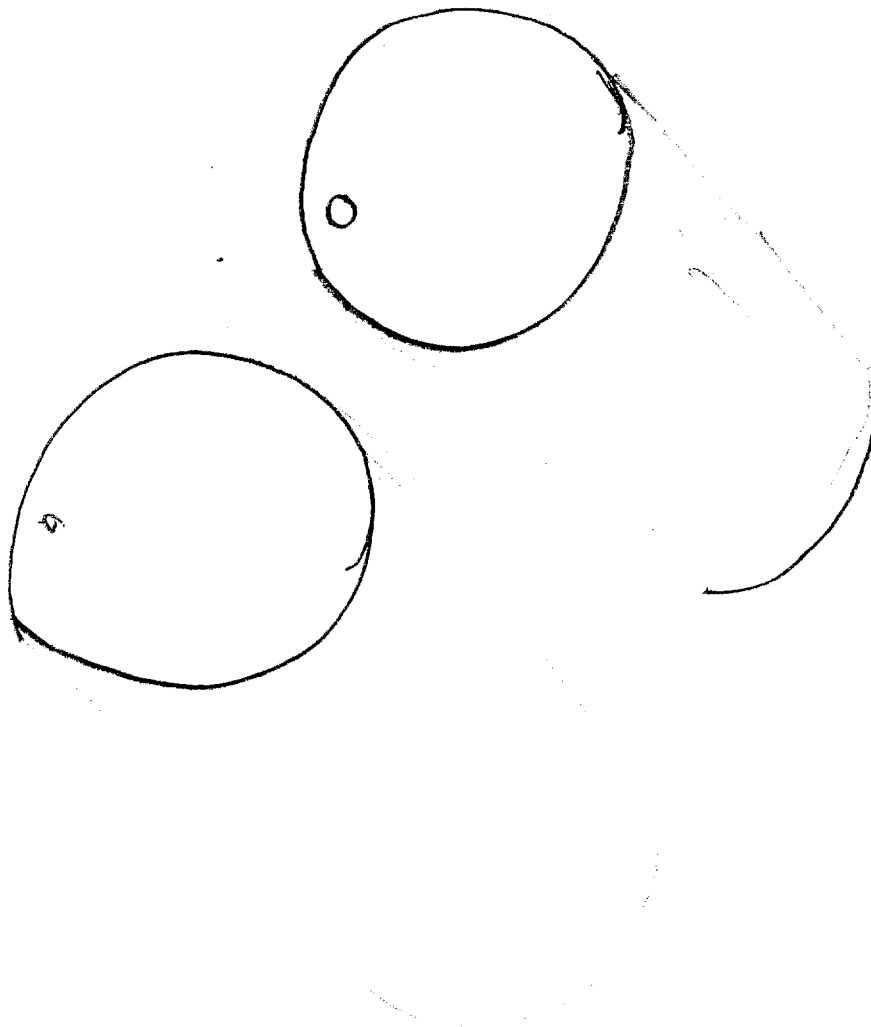

★ Black, dark colored, stored in back of transport vehicle. Liquid, getting a smell here, sweet smell - almost a putred smell - smell hurts the nose. Smells like ~~rotten~~ orchids / plants laying on top of garbage, Very strong, very sweet. Burns nose hairs eyes water, liquid, thicker than water, fluid than oil. yellowish.

→ Describe the cylinders in use - When they are used

★ Acid quality - OK - Being careful now - Raw words catalyst, not sure if it is or requires, combination mixing, smells, Impression - used several ways, not good choice of words, possibility of using with helicopters - visual of clouds of smoke, very light greyish, dusty chalky, like on chalkboard. small planes - like paper ~~etc~~ - cubes

→ What is the result of using this

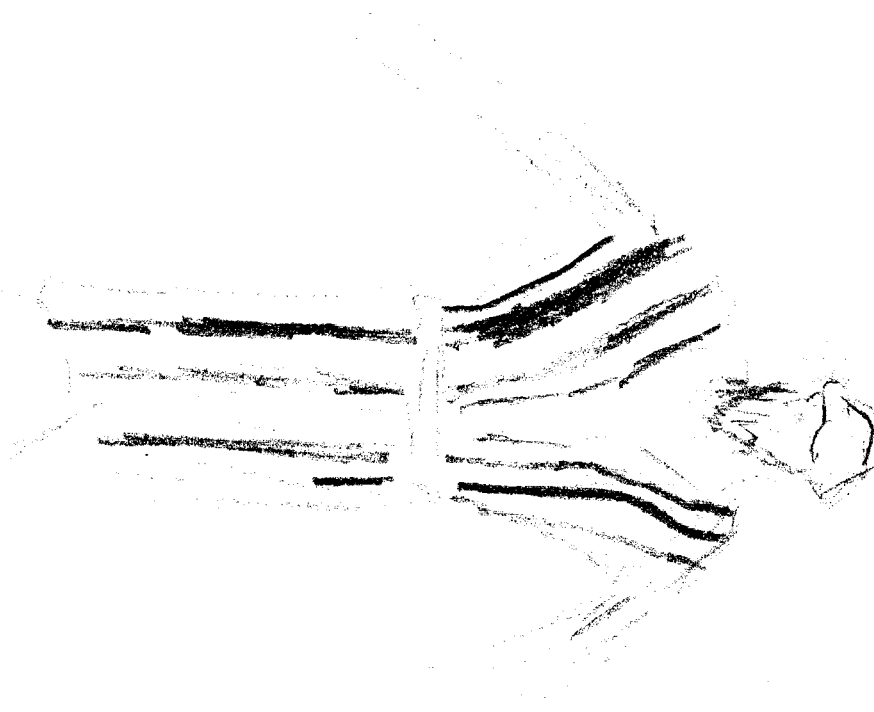

★ They insure ---- skin stretched tight, nausea, vomiting, really vomiting, crying, running nose, stomach cramps, hard to breathe, burning in chest, blood,
